A group of children are struggling with generational abuse and peer violence/bullying.

Children will learn to understand their emotions and develop empathy.

There is a story book with fun activities for us kids, and an online guide for teachers to download.

While producing this book, we worked with experts on GBV, as well as numerous professionals working with children.

"Ending gender-based violence is an urgent national priority that requires the mobilisation of all South Africans and the involvement of all institutions." Cyril Ramaphosa (SONA 2019)
